

POMPPA COLLECTION 2018-2019

PerusPomppa is the first model designed by Pomppa. It was designed as an all-dog coat that protects and keeps your dog warm, without restricting movement. Its waterproof outer fabric and an anti-static teddy lining will keep your dog dry and warm, be it rain, slush or freezing temperatures.

Colors

ToppaPomppa is a plump and covering winter coat. Its waterproof outer fabric, soft teddy lining and well-insulating wadding will keep your dog warm even when the temperature is freezing. High-quality materials, a generous sizing and large rear panels ensure that your dog will stay warm also during breaks and waiting in the car.

Colors

KevytPomppa is a shell jacket that protects the dog from rain and wind. Its outer fabric is waterproof and durable. The lining is made of thin, soft and anti-static fur fleece. The easy-to-use mid-season jacket's functional materials and good fit will keep your dog warm and dry.

Colors

New lining

SadePomppa is a dog rain coat for all-year use. Its light but durable and waterproof fabric will keep your dog dry. The lining is made of a smooth and anti-static material that won't absorb moisture. Light materials and the well-fitting design of SadePomppa will ensure that your dog won't notice the rain or the coat.

Colors

Available again

JumppaPomppa is a pull-on dog sweater, which is easy to put on and comfortable to use. The backside is made of anti-static knitted plush, and the bottom part of water-repellent thermal tricot fabric. Reflectors are placed along the side seams. Jumppa can be used under a Pomppa coat or by itself.

POMPPA PATTERN 2018-2019

PerusPomppa, ToppaPomppa, KevytPomppa and SadePomppa

The large-patterned print will look different depending on the size of the product. See above for illustrating examples in sizes 25, 40 and 75.

The year 2018 is particularly important for Pomppa. Our company will turn ten!

In honour of the celebration, we are introducing the Kymppi print – an unprecedented combination of colours and letters. The print is designed by Pomppa, and the name Kymppi means ten in Finnish, which of course refers to the jubilee year. In fact, the entire print consists of the words Kymppi and Pomppa, and the partially overlapping letters form a surface consisting of different colour areas.

The print consists of eight colours in total. They are for the most part colours of the season 2018–2019, but there are also some other colours, such as the beloved pink. Each KymppiPomppa is unique, since the colours depend on which part of the print has been used.

No two KymppiPomppa coats are the same!
